Combis becomes
a member of HT Group

2010

Hrvatski Telekom d.d. is a member of
Deutsche Telekom Group, which gives
Combis a strong leverage in the region.

Presence of DT Group

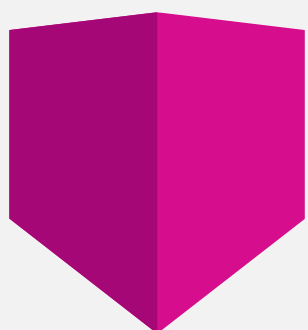

Expertise

Our goal is to get the most out of technology. A prerequisite to providing services is gaining a deep understanding of our customers' operations, the market framework within they operate, all challenges they face on a daily basis, and, of course, the existing level of their IT development. Technology is there for everyone, but expertise is what makes all the difference.

HYBRID - MANAGED
CLOUD
Nº9
- TAILOR-MADE

30SEC

We are a reliable digital transformation partner

Strong focus on creating the workplace of the future

Our goal is to unburden our customers by infrastructure while highly focusing on security

Partnership relationship with our customers that implies individual approach and tailor-made solutions.

Key competences – Multi Cloud Expertise

• CLOUD SOLUTIONS AND SERVICES FOR CLOUD PROVIDERS

- Combis cloud solution
- ComCloud platform (services: VPS, cloud storage, Hosted Exchange, Backup-aaS, DRaaS, CXaaS)
- ComProvis cloud orchestration and provisioning platform. Integration with OSS/BSS
- Combis Marketplace

ComCloud

PUBLIC AND HYBRID CLOUD

- Office365 collaborative services and solutions and integration (Digital Workplace, Microsoft Teams Voice and AV solutions, Microsoft Security, Digital Advisory,...)
- Azure and Hybrid cloud services
 - Migration to Azure cloud
 - SAP/Navision on Azure (consultancy, migration support)
 - MDM/VDI on Azure
 - Hybrid cloud services (Business Continuity, Hybrid Cloud Backup, Disaster Recovery in Cloud,...)

CLOUD SOLUTIONS

- Business solutions and applications available in Cloud and based on SaaS model

PRIVATE CLOUD

- SDDC (Software Defined Datacenter)
 - SD-Storage (VMware vSAN, Cisco Hyperflex)
 - SD-Networking (VMware NSX, Cisco ACI)
 - SD-Compute (VMware, Red Hat, Microsoft, Citrix)
 - ADC (F5, Citrix, AVI Networks)
- Cloud-native
 - Container Orchestration (Red Hat OpenShift, VMware PKS, Kubernetes, Docker)
 - API Management (Red Hat 3SCALE, Red Hat Fuse)
- EUC (End User Computing)
 - vAPP – app virtualization (Microsoft, VMware, Citrix)
 - VDI – desktop virtualization (Microsoft, VMware, Citrix)
 - EMM – Enterprise Mobility Management (Microsoft, VMware, Citrix)

Cybersecurity Services

ADVANCED SERVICES

PROACTIVE ASSESSMENTS AND RESPONSE

- Penetration tests for IT infrastructure and all kind of applications, social engineering, red teaming
- Threat hunting – proactive search for present and undetected cyber threats
- Purple teaming– blue/red team security exercise at customer for maximising their cyber defense capabilities
- Incident response handling

SoC (Security Operations Centre)

- Managed – continuous monitoring, evaluating, and protecting companies against cyberattacks
- On-premise – consulting and helping customers through process of building their own SoC at customer premise

GIAC Certified
Detection Analyst

GIAC Mobile Device
Security Analyst

Control

OUR COMPETENCES

- Top rated vendor agnostic security certificates:

ISACA, SANS, OFFENSIVE SECURITY, COMPTIA
ADVANCED, (ISC)2
- Strong references in all verticals (Government, Public, Financial, Telco, Hospitality)

Key Competences

– Software Defined Networking

Software defined data center networking and application delivery

- Consulting / Design / Implementing / Support
- Strong expertise in Cisco ACI / Hyperflex and VMware NSX solutions , application delivery solution based on F5 , VMware AVI products, Cloud integration (Azure, AWS)
- Programmability and automatization in DC operations

SD-WAN / NoC

- Strong expertise in Cisco / Versa SDN WAN solutions
- Offering managed SD-WAN solution based on Versa Networks
- Consulting / design / implementing Cisco / Versa SD-WAN headends at customer premise
- NoC operation providing 24 x 7 SLA

TEAM

- 10 highly skilled and motivated employees dedicated to unified communication solutions

COMPETENCES

- Top rated vendor certificates: Cisco CCIEs,
- High level vendor status: Cisco GOLD (Tier-1), F5 Gold

REFERENCES

- 20+ SDN references in all verticals (e.g. INA MOL, Unicredit RH, Ericsson, Infobip, Rimac, Hrvatski telekom, Podravka..)
- Building SD-WAN headend in Hrvatski Telekom

TelcoVoice Expertise

17+ years of experience with global Service provider projects

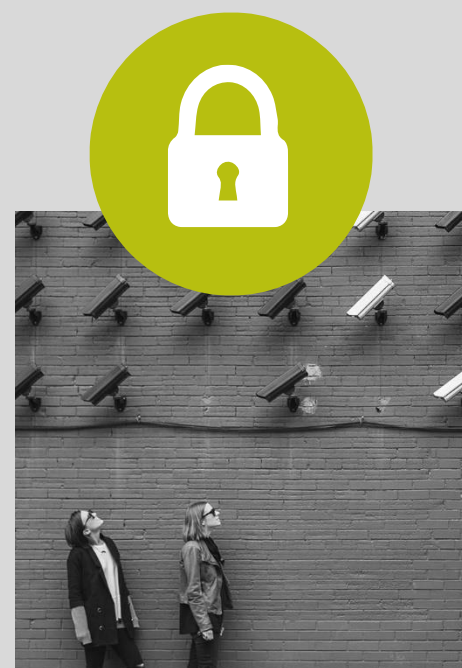

Vendors/technologies:

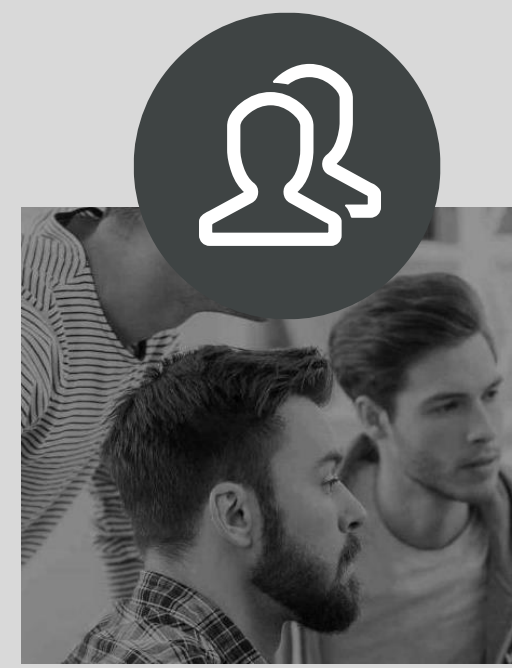

BroadWorks /
Cisco – AS/UC,
Webex

Oracle – SBC
(Session
Border
Controller)

MSteams
DirectRouting
(SBC)

Mavenir – operators
application solutions
(Telco applications)

Voice
provisioning in
general

REFERENCES

Our reference list speaks best.

- Our references include EMEA telcos, as well as Ericsson, Oracle and Mavenir partnering/subcontracting countries

Key Competences

– Unified Communication

Consulting, Designing, Implementation, Maintenance of UC technologies (on prem, managed solutions)

- CISCO UC portfolio – IP telephony, Call Center, videoconferencing technologies
- MS technologies (MS Teams, Direct Routing, Surface HUB)

COMBIS Call Center omni-channel solution

- COMBIS custom CC app (CISCO CC connector, mail management, cc agent app, reporting module) built on Cisco CC infrastructure
- Integrated Voice assistant (PolyAI), Web Collaboration (EUDATA), Call recording
- High level of customization and integration with customer IT systems

TEAM

- 10 highly skilled and motivated employees dedicated to unified communication solutions
- Biggest UC team in Adriatic region

COMPETENCES

- Top rated vendor certificates: Cisco CCIE level

TOP REFERENCES

- Allianz (CEE region, 10 countries), UCaaS system with more than 15000 (Hard+SoftPhones), 600+ sites,
- Unicredit Zagrebačka banka, Contact Center, 200+ agents
- Croatia insurance – Managed Call Center, 100 + agents

Enterprise Application Modernization

Application development adapted to the wishes and needs of individual clients

- CLOUD NATIVE SOFTWARE DEVELOPMENT following latest development trends with expertise in cloud based applications, microservice architecture, dockerization & security
- Strong BUSINESS ANALYSTS team proved through reimplementation of legacy systems focusing on financial and government sector
- WEB & MOBILE applications with own UX/UI designers
- Process digitalization & automatization, including RPA
- 30+ CERTIFICATES (Azure, MCP, Web-applications, Java SE 8, Sun Certified Enterprise Architect..)

Solutions

Our motto "We create together" sums up our 30 years of existence on the market – thanks to our 350 employees who forged their expertise on >1000 projects, we deliver the most complex technological solutions to our users.

Whether it's integration, implementation, consulting, education... one thing's for sure: we'll deliver what we promised.

#WeCreateTogether

CALL FROM TEAMS

UNIFIED
COMMUNICATIONS
AS A SERVICE

Call From Teams service connects Microsoft Teams platform with public telephone network (PSTN) and ensures making phone calls without a phone, thus providing a true Unified Communications solution without the need of investing in additional infrastructure and with fixed monthly cost.

ComProtect

ORACLE DATABASE
PROTECTION

A more affordable alternative to Oracle Data Guard physical standby database replication. Easy to implement, monitor and maintain with minimum data loss and high availability / redundancy.

**Combis
ARA**

Combis ARA provides 100% automated remote access! It enables simple handling of remote access requests and fully automated configuration of involved remote access infrastructure.

Solutions & Applications

OneCity APP

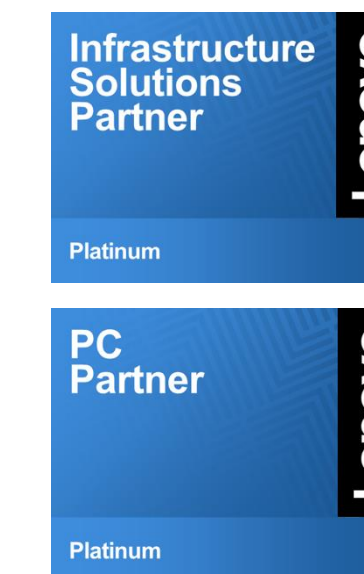

EMA is Combis' solution to companies' need for managing mobile devices of their employees and ensuring high security standards, whether it is BYOD/CYOD model or corporate owned devices.

Energy Management Information Systems that enables multiple energy sources tracking and measurements in real time, which can result in energy risk reduction (consumption monitoring and analysis). This is highly cost effective solution and can be implemented fast.

Application for making cities smarter. Citizen web & mobile access from anywhere with city services, departments and utility services and payment incorporated for utilities & services bills. Potential platform for direct citizen participation in City governance and communication.

OUR PARTNERS

Combis has established partnership with large number of leading global IT corporations.
We cooperate with more than 70 global partners, listed below are some of them.

REFERENCES

Our reference
list speaks
best.

Our references include largest companies (finance, industry, public institutions, telecoms,...) in Croatia and abroad (Serbia, BiH, North Macedonia, Montenegro, Greece, Turkey, Israel, Malta and other countries).

We are here for you!

Our experts are ready to answer your call anywhere and anytime to organize a meeting, hold a presentation, workshop or perform any other activity that will help you learn more about our expertise.

Why Combis?

Because we solve ICT challenges in a high-quality and reliable way, always putting the customer first. Our motto is #DeliverOnPromise and we live it every day!
